

Dear Tuxedo Community,

I'm reaching out to you in hopes that Laidlaw School holds a special place in your family's journey. As with other families that have had a child attend this "gem" of a school, you can appreciate the role it has played in your child's start to their education and social development.

As you may know, the Laidlaw Parent Advisory Council Play Educate and Grow (PEG) Committee is embarking on a new project to improve the school's outdoor space. Our dreams for our children's play area are big! We hope to turn a blank space into an area that will be enjoyed by our students and community members for years to come. Our project includes renovated soccer fields, the purchase of new soccer nets, adding hills for winter fun, adding a Fit Zone with new playground equipment including swings. We will also hope to be adding a stage, and an outdoor classroom for creative use both during class and recess time.

With big dreams comes the need for big support. Our budget for this project is \$390,000. We are currently applying for a number of grants, and anticipating receiving grant funds for about 1/3 our budget. The financial support of community family/business members is much needed.

Whether you had a child, grandchild, niece/nephew attend here or your loved ones have enjoyed our outdoor space, we know you are connected to what our school embodies and hope you will consider being a part of something great. Please consider a gift in-kind or a donation, please contact me at [jbthiessen@me.com](mailto:jbthiessen@me.com). Your support is greatly appreciated.

*Our school has a small community but a big heart.*

Thank you for your thought & consideration,

Jennifer Thiessen

Building a Laidlaw Legacy for Learning and Sports

At Laidlaw School, our students have big dreams for a new outdoor space. We have big dreams too because we know that outdoor play is vital to learning. We have an existing play structure but the rest of the yard is just a blank space. We hope you will join in contributing a generous gift that will make these dreams a reality.
